

I Know Courage

*I know courage when I see it
In the face of someone
Who sets aside fear.
I saw courage at work
In the firemen featured
In the news last year.*

*I know courage when I see it
In the raised hands of someone
Who acts on his or her belief.
I heard about courage at work
When my mother told me
Of neighbors stopping a thief.*

*I will know courage when I feel it
Filling my own heart and mind
With a sense of right and wrong.
Courage will build my character
As I learn that I can help others
By being brave; by being strong.*
